## Air Quality Advisory Issued For Dust Saturday Afternoon Through Sunday

Clark County Department of Air Quality (DAQ) has issued a dust advisory for the afternoon of **Saturday, Oct. 15**, through **Sunday, Oct. 16**, to advise residents and local construction sites of the possibility of elevated levels of blowing dust due to the forecast of high winds in our area.

At this time, unhealthy-for-sensitive-groups levels of dust are not occurring. Clark County Air Quality officials will continue to monitor conditions and will post an update on the forecast page of the DAQ website if necessary. The website also contains data on current and past conditions. A link to the forecast page is: <http://redrock.clarkcountynv.gov/forecast/>.

### ADDITIONAL INFORMATION:

Airborne dust aggravates respiratory diseases such as bronchitis and asthma. It may be best for children, the elderly, and people with respiratory diseases to stay indoors. If you are experiencing breathing difficulties or medical conditions that you think are related to air quality, see your doctor. Detailed air quality conditions are posted in the monitoring section of the DAQ website. You can receive free air quality forecasts and advisories via e-mail or text message through Enviroflash service. Subscription information is available at [www.enviroflash.org](http://www.enviroflash.org). Residents are encouraged to call Air Quality's dust-complaint hotline at 385-DUST to report excessive amounts of blowing dust. Officials also recommend the following tips to keep dust down:

- Drive slowly on unpaved roads.
- Don't take short cuts across vacant lots.
- Ride off-road vehicles in approved areas outside the urban Las Vegas Valley.
- Limit outdoor exertion on windy days with dust in the air. Exercise, for example, makes you breathe heavier and increases the amount of particulates you are likely to inhale.
- Keep windows closed. Run your air conditioner inside your house and car to filter out particulates.
- Consider changing your indoor air filters if they are dirty.

###

Clark County is a dynamic and innovative organization dedicated to providing top-quality service with integrity, respect and accountability. With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark is the nation's 13<sup>th</sup>-largest county and provides extensive regional services to more than 2.1 million citizens and 45 million visitors a year. Included are the nation's 8<sup>th</sup>-busiest airport, air quality compliance, social services and the state's largest public hospital, University Medical Center. The County also provides municipal services that are traditionally provided by cities to about 954,000 residents in the unincorporated area. Those include fire protection, roads and other public works, parks and recreation, and planning and development.
